RE: Liquidation following notification of ITC negative determination of critical circumstances for welded stainless pressure pipe from Malaysia for the period before 01/07/2014 (A-557-815)

1. On 07/25/2014, the International Trade Commission (ITC) determined that critical circumstances do not exist with respect to subject imports from Malaysia. As a result of the ITC's negative determination of critical circumstances, CBP should terminate the suspension of liquidation for all shipments of welded stainless pressure pipe from Malaysia that were entered, or withdrawn from warehouse, for consumption before 01/07/2014 (the date of publication of Commerce's affirmative preliminary determination notice in the Federal Register). All such entries should be liquidated without regard to antidumping duties (i.e., release any bonds and return all cash deposits).
2. Notice of the lifting of suspension of liquidation of entries of merchandise entered, or withdrawn from warehouse, for consumption before 01/07/2014 (the date of publication of the Commerce's preliminary determination notice in the Federal Register) occurred with the publication of the ITC's final determination of its investigation (79 FR 43511, 07/25/2014). For all other shipments of welded stainless pressure pipe from Malaysia, continue to collect cash deposits of estimated antidumping duties for the merchandise at the current rates unless instructed otherwise.
3. The interest provisions of section 778 of the Tariff Act of 1930, as amended, do not apply.
4. If there are any questions by the importing public regarding this message, please contact the Call Center for the Office of AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce at (202) 482-0984. CBP ports should submit their inquiries through authorized CBP channels only. (This message was generated by O4:EK.)
5. There are no restrictions on the release of this information.

Michael B. Walsh
